ASSIGNMENT

WHEREAS, Libra Medical Systems, Inc., a Delaware Corporation (hereafter the "ASSIGNOR"), possesses, or has possessed, or has rights to possess in the future, exclusive ownership of all rights, title, and interest in an invention for certain new and useful improvements in

INTRA-AORTIC RENAL DRUG DELIVERY CATHETER

(the "INVENTION") for which an application for United States Letters Patent was filed on November 28, 2000, and assigned Serial No. 09/724,691.

WHEREAS,

FlowMedica, Inc.
46563 Fremont Blvd.
Fremont, CA 94538

a United States corporation (hereinafter "ASSIGNEE") is desirous of acquiring the entire right, title and interest in the same:

Now, therefore, in consideration of the sum of one dollar (\$1.00), and other good and valuable consideration, the receipt whereof is hereby acknowledged, said ASSIGNOR hereby sells, assigns and transfers unto said ASSIGNEE, all of ASSIGNOR's right, title, and interest in and to the INVENTION anywhere in the world, the entire right, title, and interest in and to any U.S. patent application and any U.S. patent issuing thereon covering the INVENTION, including without limitation any and all continuation, divisional, continuation-in-part, re-examination, or reissue applications, and also any and all corresponding foreign patent applications and patents issuing thereon anywhere in the world, including without limitation all rights under all International Conventions for the Protection of Industrial Property, and including with respect to any present or future interest of ASSIGNOR in such rights thus assigned. ASSIGNOR further transfers to ASSIGNEE all right, title, and interest, if any, of ASSIGNOR to seek or demand cooperation or information from the inventor(s) of the INVENTION or other persons in order to confirm and perfect title in ASSIGNEE, or otherwise to allow ASSIGNEE to obtain, maintain, or enforce any patent that may issue at any time and that is based at least in part on the INVENTION or otherwise claiming priority to the patent application indicated hereunder, and including without limitation all rights to seek or demand execution of complete assignment(s) of any and all rights, title, and interest to the INVENTION from any or all of the inventor(s) thereof, either directly or indirectly, and in particular including the right to seek and obtain execution of a replacement assignment(s) from such inventor(s) directly to ASSIGNEE, such as according to the scope and form provided in Attachment A herewith, which is intended upon execution to replace or modify the previously executed assignment(s) of inventor(s) rights to ASSIGNOR also appended herewith as "Exhibit 1" to Attachment A. ASSIGNOR will also execute all documents deemed necessary by ASSIGNEE to confirm title in ASSIGNEE.

Said ASSIGNOR hereby authorizes and requests that U.S. Letters Patent issue to said ASSIGNEE, as the assignee of the entire right, title, and interest in and to the same, for the sole use and for the use of its successors, legal representatives, and assigns, to the full end of the term for which said Letter Patent may be granted, as fully and entirely as the same would have been held by said ASSIGNOR had this assignment and sale not been made.

This Assignment, upon its execution by the signature of the undersigned below on behalf of ASSIGNOR, supercedes and replaces any other previous or contemporaneous agreement regarding the subject matter hereof, including in particular the "Prior Assignment" in Attachment B hereto. To the extent that operation of law, equity, or prior contract prevents operation of this Assignment to so supercede and replace the Prior Assignment, and the Prior Assignment does not deliver to ASSIGNEE all of ASSIGNOR's rights, title, or interest in and to the INVENTION intended to be delivered hereunder, then this Agreement shall be read, and shall be limited or modified if necessary and appropriate, in order to deliver to ASSIGNEE any and all remaining rights not previously delivered to ASSIGNEE under the Prior Assignment.

Witness, the undersigned, by providing the signature below, represents and warrants having the power and authority to execute this document on behalf of ASSIGNOR and therefore bind ASSIGNOR to the terms provided hereunder on the date(s) indicated.
